# CYBERSECURITY

# CONTENT

- Last week

- This week

- Interview

- Objective

- Problems

- Next steps

# LAST WEEK

- Brainstorm for ideas

- Notes from the brainstorm

- Scrum board ➔ Microsoft Planner

- Made an account for Twitter and GitHub
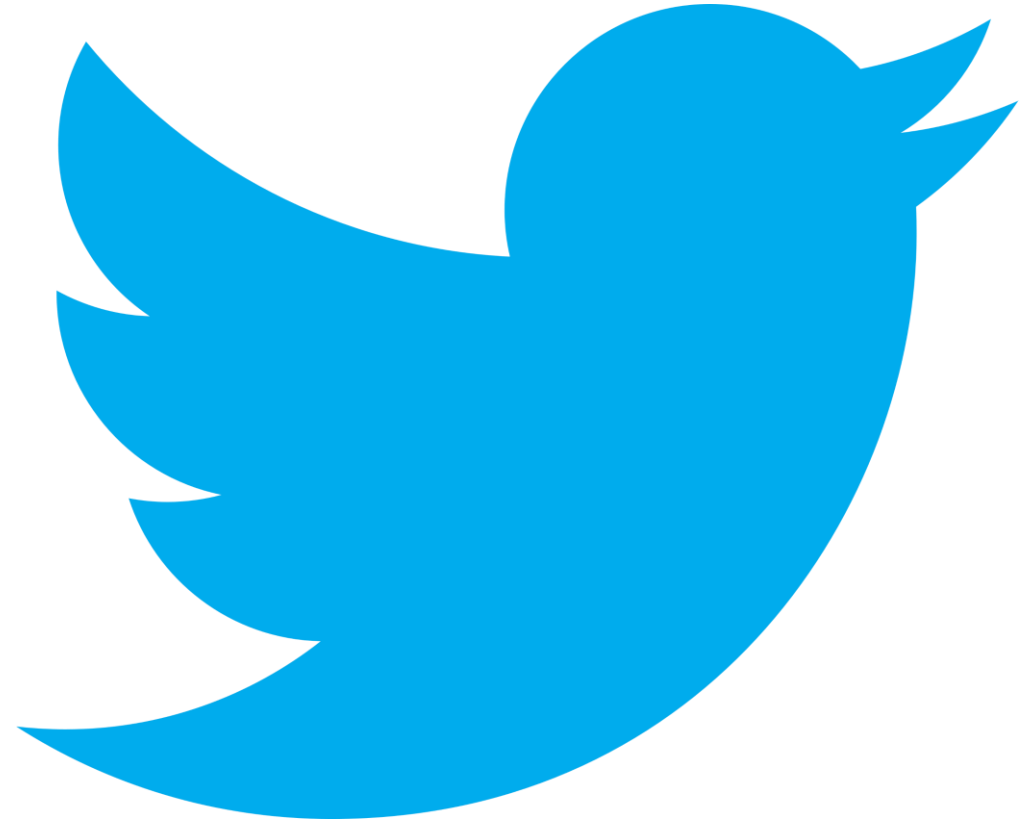

- Interview questions

# THIS WEEK

- Research plan workshop

- Register for a Twitter developer account

- Interview with the product owner

- Layout of the research plan

- Desk research

# INTERVIEW

1. We must follow hacktivists
2. Find patterns
3. Keywords on frequent terms
4. Linked websites by the users
5. Connect users to each other

# OBJECTIVE

"Collecting twitter feeds and making a risk analysis to a profile through machine learning"

# PROBLEMS

- We don't have access to Twitter private and public keys
  - ➜ Process stops

- We can't extract tweets with Tweepy

- We have to find out relevant keywords

# NEXT STEPS

- Getting the private and public keys as soon as possible

- Or find another way to extract data

- Finish the research plan

- Advance individual skills in Datacamp

# Q&A
