# CYBER SECURITY

Mendel Lion Sjin Tjoe, Boyoung Han

Jorge Edmundo Ortiz Durán, Jaekyu Lee, Petri Pellinen

CONTENT

- Overview

- Progress

- Next step
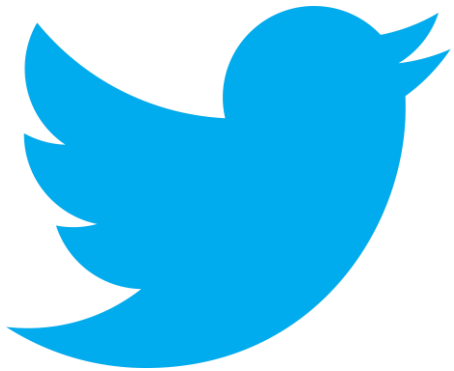

OVERVIEW

- Objective

"Collecting twitter feeds and

making classifier & Sentiment analysis

Specified for CyberSecurity"

PROBLEMS

- Exam took a lot of time from project work

- File corrupted -> Solved

- Users that are banned -> Moved to the bottom of the list

- Choosing the best classifier for our purpose (SVM = Support Vector Machine)

NEXT STEP

- Finishing labelling

- Make baseline for the classifier

- Start doing research report

Q&A
